MANGA Performance

Osamu Tezuka, the “God of Manga,” would have been 90 years old in 2018. Were you aware of his most loved major work from his early years, Amazing 3?

Amazing 3 is a science fiction spectacle in which Shinichi, an Earthling with a strong sense of justice, encounters three highly unique aliens – together, they fight against evil for the survival of Earth.

Also released in TV anime form, this manga, which enjoyed feverish popularity among young boys a half-century ago, is brought to life again as a “MANGA Performance,” a new type of cutting edge entertainment that can be enjoyed by anyone regardless of age or nationality.

Come and experience the free omnidirectional projection mapping heavily influenced by manga art and the colorful music that adds depth to the story, and witness a parade of dance, mime, magic, and acrobatic performances that will leave you breathless! Words cannot describe this completely new experience which will transport you to the world of imagination with surprise, discovery, and more surprise.

You'll wish you had another set of eyes and ears to fully grasp this 70-minute performance. Why not come and experience Amazing 3 directly, just for you?

The Galactic Federation, a collection of advanced beings from the Milky Way Galaxy, has issued an order to the Amazing 3 assigned to the 4th Squad of the Galactic Patrol to investigate whether human beings are good or not.

The Amazing 3 morph into animal form and infiltrate the Earth, only to encounter a cool-headed spy from the land of A within the apartment of manga artist Shinichi, who becomes embroiled in a major incident that threatens the very survival of humanity.
